Community SMR Education Sessions

Once-In-A-Lifetime Opportunity For Alberta Communities

An unprecedented, century-long economic opportunity awaits Albertans: an opportunity to secure long-term energy sovereignty in support of economic growth, accompanied by a range of stable long-term employment opportunities.

Many questions face community members and Nucleon Energy proposes to hold a series of open information sessions aimed at enabling communities to assess these opportunities.

Upcoming Public Information Sessions

BIRCH HILLS COUNTY:

Feb. 10, 2025 at Tangent Community Hall
Afternoon session: 2 - 5 PM
Evening session: 7 - 10 PM

MD OF SMOKY RIVER:

Feb. 11, 2025 at Centre Chevalier in Falher, AB
Evening Session: 7 - 10 PM

Session Format and Objectives

These session are open to the public and are aimed at enabling community members to receive information from a range of nuclear industry representatives, starting with a 30-minute presentation by Dr. Neil Alexander that will take on common misconceptions and provide fresh viewpoints, followed by a 20-minute overview of modern SMRs by Nucleon Energy.

Following the presentations, attendees will have the opportunity to engage in discussions with Dr. Alexander and Nucleon Energy representatives.
