NRCB Natural Resources Conservation Board

Total permitted animal capacity from all permits for this site:
60,000 chicken layers (plus associated pullets)
30,000 chicken broilers

In consideration of Decision Summary FA25008, Approval FA25008 is issued to:

Name: Hutterian Brethren of Timberline and Hutterian Brethren Church of Birch HIlls (the "co-permit holders")
Contact person: Paul Walters

Permitted construction (based on the submitted site plan):

- Layer barn with attached manure shed – 152.5 m x 21 m
- Pullet barn – 152.5 m x 15 m
- Broiler barn with attached manure pad – 152.5 m x 21 m

The co-permit holders shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that Act.

The co-permit holders shall adhere to the descriptions, the site plan, building plans, and other attached documents included with filed Application FA25008.

The co-permit holders shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in conditions 3, 6, and 9.

Construction conditions

Layer barn with attached manure storage shed

1. Construction completion deadline

   The co-permit holders shall complete construction of the layer barn with attached manure storage shed prior to December 1, 2028. Upon request, this deadline may be extended by the NRCB in writing.

2. Concrete

   The concrete used to construct the manure collection and storage liner of the layer barn with attached manure storage shed must meet the specifications for category D (solid manure dry), in Technical Guideline Agdex 096-93 "Non-Engineered Concrete Liners for Manure Collection and Storage Areas". The co-permit holders shall provide documentation to the NRCB confirming the specifications of the concrete used. This document must be provided to the NRCB prior to the inspection referenced in condition 3, below, or by a later date stated by the NRCB.

3. Post construction inspection (prior to populating facility)

   The co-permit holders shall not place manure or livestock in the layer barn with attached manure storage shed until the NRCB has inspected the facility and stated in writing that it has been constructed in accordance with this approval.

Pullet barn

4. Construction completion deadline

   The co-permit holders shall complete construction of the pullet barn prior to December 1, 2028. Upon request, this deadline may be extended by the NRCB in writing.

5. Concrete

   The concrete used to construct the manure collection and storage liner of the pullet barn must meet the specifications for category D (solid manure dry), in Technical Guideline Agdex 096-93 “Non-Engineered Concrete Liners for Manure Collection and Storage Areas”. The co-permit holders shall provide documentation to the NRCB confirming the specifications of the concrete used. This document must be provided to the NRCB prior to the inspection referenced in condition 6, below, or by a later date stated by the NRCB.

6. Post construction inspection (prior to populating facility)

   The co-permit holders shall not place manure or livestock in the pullet barn until the NRCB has inspected the facility and stated in writing that it has been constructed in accordance with this approval.

Broiler barn with attached manure storage pad

7. Construction completion deadline

   The co-permit holders shall complete construction of the broiler barn with attached manure storage pad prior to December 1, 2028. Upon request, this deadline may be extended by the NRCB in writing.

8. Concrete

   The concrete used to construct the manure collection and storage liner of the broiler barn with attached manure storage pad must meet the specifications for category D (solid manure dry) and category C (solid manure wet), respectively, in Technical Guideline Agdex 096-93 “Non-Engineered Concrete Liners for Manure Collection and Storage Areas.” The co-permit holders shall provide documentation to the NRCB confirming the specifications of the concrete used. This document must be provided to the NRCB prior to the inspection referenced in condition #9, below, or by a later date stated by the NRCB.

9. Post construction inspection (prior to populating facility)

   The co-permit holders shall not place manure or livestock in the broiler barn with attached manure storage pad until the NRCB has inspected the facility and stated in writing that it has been constructed in accordance with this approval.

This approval becomes effective immediately. The approval conditions will remain in effect unless amended in writing by the NRCB.
